The Storage capacity figures shown against each individual elevator listed in this publication include the elevator proper and all permanent and temporary annexes attached thereto as registered with the Board of Grain Commissioners for Canada as at December 1st, 1952.

The managers of certain elevator buildings which cannot be licensed as elevators on account of faulty receiving scales have been granted authority to operate them as Special Annexes to specific licensed elevators. These buildings however are listed herein as unlicensed elevators as they can not be used for the purpose of receiving producers' grain delivered in truck or wagon-load lots. They are indicated by the sign "XSA".

## COUNTRY ELEVATORS

As at December 1st, 1952

Order-in-Council P.C. 5122, dated September 26th, 1951, provides for the licensing of buildings that while suitable for the emergency storing of wheat can not qualify for licensing as country elevators under The Canada Grain Act. These buildings are located on and off railway sites and are known as Special Annexes.

The Special Annexes are not grain elevators and are of a temporary nature; therefore the undershown figures pertaining to such type of storage have not been included elsewhere in this publication except in the final summaries.
